# general terms

## GENERAL SALES AND DELIVERY CONDITIONS ZWAPAK B.V. AALSMEER, HOLLAND

### clause 1 Validity of these general conditions

1.1 Unless otherwise agreed in writing, these general conditions are applicable to all offers and/or agreements made and/or entered into by Zwapak B.V., hereinafter referred to as "Zwapak".

1.2 Zwapak has the right to alter these general conditions in the interim. The altered conditions will then replace the conditions valid until then and will apply to the existing agreement wherever possible, as soon as the buyer has been offered a reasonable opportunity to take cognisance of the altered conditions.

1.3 Deviation clauses and any general conditions of the buyer will only apply if and insofar as these have been accepted in writing by Zwapak.

1.4 Should any stipulation of these general conditions be null and void, or become null and void, the remaining general conditions will remain in force as much as possible and the stipulation in question will be replaced by one which approaches the meaning of the original stipulation as closely as possible.

### clause 2 Offers

2.1 Offers made by Zwapak are without obligation.

Orders of specific goods given to representatives or other intermediaries will only be accepted after written confirmation by Zwapak.

2.2 Offers made by Zwapak have a term of validity of 14 days.

After this period any options will expire and Zwapak reserves the right to use the capacity reserved for the execution of the offer for other applications.

### clause 3 Delivery/risk

3.1 The goods are delivered from Zwapak's warehouse.

From then on goods are transported at the account and risk of the buyer.

If carriage paid delivery is agreed, Zwapak is only obliged to deliver to a destination where delivery is possible in the normal way using the means of transport chosen by Zwapak, and the buyer is obliged to take delivery of the goods at that place.

3.2 All delivery terms mentioned by Zwapak are laid down to the best of their knowledge on the basis of the information known to Zwapak when the agreement was entered into, and will be complied with as much as possible. A single exceeding of the delivery terms mentioned will not bring Zwapak into default.

### clause 4 Prices

If the cost price of Zwapak is increased as a result of interim rate changes of turnover tax, social insurance contributions, wages tax or other government levies, or as a result of price changes of third parties or changes in the price of raw materials, Zwapak is entitled to charge these changes on to the buyer.

### clause 5 Tolerances

5.1 Colour

Minor deviations in colour printing are no reason for rejection.

5.2 Quantity

Zwapak will be deemed to have performed properly if deviations in quantity do not exceed:

a. for paper products:

- 20% above or below the stated quantity for orders with a net weight of up to 250 kg.

- 10% above or below the stated quantity for orders with a net weight of 250 to 5000 kg.

- 5% above or below the stated quantity for orders with a net weight exceeding 5000 kg.

b. for film products, plastics or a combination of these:

- 30% above or below the stated quantity for orders with a net weight of up to 500 kg.

- 20% above or below the stated quantity for orders with a net weight of 500 to 1000 kg.

- 10% above or below the stated quantity for orders with a net weight exceeding 1000 kg.

c. for cardboard products:

- 20% above or below the stated quantity for orders with a net weight of up to 500 kg.

- 10% above or below the stated quantity for orders with a net weight exceeding 500 kg.

d. for corrugated cardboard boxes:

- 20% above or below the stated quantity for orders of less than 1000.

- 15% above or below the stated quantity for orders of 1000 to 5000.

- 10% above or below the stated quantity for orders exceeding 5000

e. for all other products:

- 30% above or below the stated quantity for orders with a net weight of up to 500 kg.

- 20% above or below the stated quantity for orders with a net weight of 500 to 1000 kg.

- 10% above or below the stated quantity for orders with a net weight of 1000 to 5000 kg.

- 5% above or below the stated quantity for orders with a net weight exceeding 5000 kg.

Each order means one batch in one size and quality.

Invoices are based on the actual delivered quantity.

5.3 Material

Zwapak will be deemed to have performed properly if the deviations in quality, colour, thickness, etc. are minor.

When assessing whether a delivery exceeds the permissible boundaries, an average from the delivery must be taken; i.e. there can be no rejection based on single samples. Deviations in colour of cardboard or lining are permissible and do not constitute non-performance.

5.4 Gram weight

The permissible deviation from an agreed gram weight is:

a. paper:

- up to 39 gr/m<sup>2</sup>: 8 %

- between 40-59 gr/m<sup>2</sup>: 5 %

- more than 60 gr/m<sup>2</sup>: 4 %

b. boxes:

- up to 500 gr/m<sup>2</sup>: 5 %

- more than 500 gr/m<sup>2</sup>: 8 %

5.5 Thickness

The permissible deviation of an individual measurement with regard to the agreed thickness is:

- polypropylene and films up to 40 micron: 20 %

- polypropylene and films over 40 micron: 15%

5.6 Size.

The permissible deviation from the agreed size is:

a. paper on rolls:

- 5% with a minimum of 5 mm.

b. paper in sheets:

- 5% with a minimum of 5 mm (in length and breadth).

c. film products on rolls:

- ca. 5 mm.

d. sleeves and bags made of polypropylene film:

- in spread out width/length up to 200 mm: ca. 2 mm.

- above 200 mm. ca. 4 mm.

e. paper bags:

- in spread out width max. 10 mm.

- in bag length max. 10 mm.

f. the permissible deviation from the agreed roll diameter is 3 cm.

A small number of 'residual rolls' may have a smaller diameter.

Measurements of corrugated cardboard boxes are internal and the sizes are stated in the order length x width x height.

In the case of sheets, the size mentioned first is parallel to the direction of the corrugation (i.e. direction of a corrugation rib and a corrugation trough).

The maximum permissible tolerance on a measurement is + or - 5 mm.

5.7 If a maximum or minimum value is agreed, the double deviation below or above is permitted.

5.8 For specifications other than those mentioned in this clause, the deviations permitted in earlier deliveries are permissible, and in the absence of them, the commonly accepted deviations.

### clause 6 Complaints

6.1 Complaints will only be dealt with if Zwapak has been notified of them in writing within 8 days of receipt of the delivered goods, failing which complaints can no longer be submitted. Likewise complaints can no longer be submitted if the delivered goods have been used and/or processed, regardless of when the complaint is submitted.

6.2 Zwapak accepts no liability whatsoever for delivered goods which do not conform to the agreement.

Should Zwapak acknowledge that a complaint is justified, it is entitled to pay no compensation and instead of that to deliver again, or to carry out the agreed work again.

If Zwapak acknowledges that a complaint is justified the buyer does not have the authority to offset, or to wholly or partially suspend, his obligations to Zwapak, whatever their nature.

### clause 7 Payment

7.1 Each purchasing/sales agreement will be entered into by Zwapak under the suspensory condition that the buyer appears to Zwapak to be sufficiently creditworthy.

7.2 Payment must be made within 14 days of the invoice date at the office of Zwapak, or to any bank or giro-account designated by Zwapak.

If any amount owed under an invoice is not paid within a period of 14 days after the invoice date, the buyer will be obliged to pay a default of payment interest over this period to Zwapak without notice of default being required for this.

This default of payment interest is the statutory interest plus 2%.

7.3 If buyer has not paid the invoice sum, or has not paid it in full, on the due date, all amounts owed by buyer to Zwapak under any other invoices, including the amount of the invoice in question, will be immediately payable in full.

In such cases the invoiced amount will be increased by 10% administration costs, while collection costs incurred both in and out of court, not exceeding 15% of the invoiced amount with a minimum of EUR 250, will also be borne by the buyer.

### clause 8 Dissolution/suspension

8.1 If buyer fails to fulfil any of his obligations arising from an agreement with Zwapak property or on time, as well as in the event of bankruptcy, suspension of payment, shut down, liquidation or termination other than for the reconstruction or merger of enterprises of the buyer's company, buyer will be in default by operation of law and Zwapak is entitled to suspend the execution of the agreement in question without notice of default and without judicial intervention, or to dissolve this wholly or in part at its discretion, without being bound to any compensation or guarantee and without prejudice to any other rights to which Zwapak is entitled.

In all these cases any claim of Zwapak on buyer is/will be immediately due and payable.

8.2 If Zwapak has well-founded fears that the buyer will be unable to fulfil his obligations arising from the agreement, he is entitled to suspend the execution of the agreement in question without notice of default and without judicial intervention, without being bound to any compensation or guarantee and without prejudice to any other rights to which Zwapak is entitled.

8.3 An impediment on the part of the buyer, through any cause whatsoever, which results in the agreement being cancelled wholly or in part, does not release the buyer from his obligation to pay the total price stated in the agreement.

8.4 If the agreement between Zwapak and buyer is dissolved under this clause, the buyer is obliged to compensate Zwapak in full, with as minimum compensation a payment of the total costs and loss of profits demonstrably incurred by Zwapak.

The buyer indemnifies Zwapak against all claims from third parties, including suppliers, resulting from the dissolution of the agreement.

8.5 Buyer shall not suspend his payment obligation without the express written permission of Zwapak, nor offset that which he owes by any claim which he might have on Zwapak.

### clause 9 Cancellation

On the cancellation of an order the original invoiced amount can be charged to the person who initially placed the order.

Zwapak can decide not to take back the delivered and accepted goods.

The products of which the customer has been informed that they have been ordered specially for him/her cannot be refused or returned when the final order confirmation has been issued. In case that the customer refuses to take receipt of these products on the latest date of purchase confirmed, Zwapak reserves the right to invoice these products in advance or to deliver and invoice them simultaneously to the customer.

### clause 10 Force majeure

Circumstances beyond the control of Zwapak which mean that the fulfilment, or further fulfilment, of the agreement can no longer be expected of Zwapak, count as force majeure and give Zwapak the right to dissolve or suspend the agreement in question, wholly or in part, without the buyer having any right to claim compensation for that. Buyer is then obliged to pay Zwapak reasonable compensation, to be decided by mutual agreement, for the performance of Zwapak up to that point.

### clause 11 Retention of title

11.1 Zwapak retains the title to goods supplied to buyer until the buyer has paid the full purchase price to Zwapak.

Payment goes first to the payment of buyer's oldest debts to Zwapak, including any interest, costs or compensation owed.

Likewise if Zwapak has a claim on buyer in respect of any other agreement, Zwapak retains the title to the goods until the claim is satisfied. If Zwapak receives payment from a third party relating to the delivery of the goods, ownership of the products passes to the buyer.

11.2 If buyer is in default of payment he is obliged to return the goods in question to Zwapak immediately, carriage paid, on first demand of Zwapak.

### clause 12 Drawings/designs/preparatory materials

12.1 All rights of intellectual or industrial ownership of all drawings, models, inventions, designs and/or documents of similar import developed or made available by virtue of the agreement, rest exclusively with Zwapak or its licensors. Buyer acquires only those rights of use and authorities that are expressly granted and, with regard to the rest, buyer will not reproduce, copy or make available or show the drawings, models, inventions, designs and/or documents of similar import to any third party/parties without written permission.

The items referred to in the previous sentence must be returned to Zwapak immediately on the request of Zwapak.

12.2 All materials which Zwapak uses in the preparation of its products, including films, polymers or pressure cylinders, cutting dies and digital files of designs, remain the property of Zwapak. Under no circumstances can claims of any nature whatsoever be made on these materials by buyer.

If preparatory materials are made and/or used, buyer will pay for them per order.

12.3 Zwapak can transfer its intellectual and/or industrial ownership rights of the materials mentioned in clause 12.2 to the buyer at a price to be fixed by Zwapak at a later date.

### clause 13 Secrecy

Both parties are obliged to maintain secrecy concerning all confidential information which they have obtained within the framework of their mutual agreement or from any other source.

Information is regarded as confidential if this is designated as such by the other party or if it derives from the nature of the information.

### clause 14 Damage

14.1 Zwapak is only liable for direct damage suffered by the buyer which results directly from the non-fulfilment, late fulfilment or improper fulfilment of the agreement if there is demonstrable intentional or gross negligence on the part of Zwapak.

Under no circumstances is Zwapak liable for indirect damage, including consequential damage, lost profit, lost savings, business standstill or extra costs.

14.2 The maximum liability of Zwapak is limited to the amount of the price agreed for the complete execution of the agreement.

### clause 15 Disputes

All disputes which might arise between Zwapak and buyer ensuing from an agreement between Zwapak and buyer, including disputes that are only regarded as such by one party, will be brought before the civil court of the place of business of Zwapak.

### clause 16 Applicable law

Only Dutch law shall apply to all agreements entered into and/or acts carried out by Zwapak.

These agreements/acts will be regarded as having been entered into/ carried out in the Netherlands.

### clause 17

The English conditions are stringent.

For your convenience, you can also request these conditions in the following languages:

-Dutch

-German

-French

-Spanish

-Italian
